

Proposed Service Change Package:

OGDEN SERVICE CHANGES

Counties Served: Weber

UTA Moves 2050 Alignment: Phase 1.

RTP Alignment: Wasatch Choice Vision Phase 1.

DESCRIPTION:

Local routes are receiving improvements and coverage is expanded via the Innovative Mobility Zone.

BENEFITS:

The Ogden Service Changes Package will improve the connectivity of the UTA transit system in Ogden and adjacent communities. They will also improve access to destinations throughout the Ogden area. The service changes will make the system simpler and easier for passengers to navigate.

IMPACTS:

The Ogden Service Changes Package will require some adjustment for passengers. Riders along Harrison Boulevard north of 12th Street and in North Ogden north of 2600 North will no longer have direct bus service; however, these areas will be served by IMZ-562. While there are some modifications from what was outlined in the 2025-2029 5YSP, overall service coverage and levels remain the same. In some cases, routes will have different numbers, and certain corridors may be served by a different route than originally proposed.

PROPOSED SERVICE CHANGE

- Discontinued Routes: 601, 625
- Route Modifications: 645, 612
- New Services: 610, IMZ-562
